SEND Provision in National Curriculum Subjects – Blackwater School 2021 - 2023

SECTION IN RED NEEDS TO BE ADAPTED AND SCHOOL SPECIFIC We want all children with SEND to be fully engaged in and enjoying learning, be included with peers, be at least NARE or making accelerated progress. Below is a list of the adaptions we make for children with SEND in each National Curriculum subject and for each broad and specific area of need. When planning we consider ways of minimising or reducing barriers to learning so that all learners can fully take part and learn. In some activities, children with SEN and/or disabilities will be able to take part in the same way as their peers. In others, some modifications or adjustments will need to be made to include everyone. For some activities, we provide a 'parallel' activity for learners with SEND so that they can work towards the same lesson objectives as their peers, but in a different way. Occasionally, and always to meet specific needs, children with SEND work on different activities or towards different objectives, to their peers. **Note content of OFSTED Subject review (Geography)** There is no single teaching strategy that meets the needs of all pupils with SEND. However, ensuring that there are adequate structures and sufficient scaffolding in place to support those who need it is crucial. Fundamentally, planning to ensure that pupils with SEND make strong progress is likely to have a positive impact on all pupils. Teachers' expectations should be suitably high for all pupils. Too often, however, the focus is on teaching to the middle and so many pupils with SEND and those who struggle are likely to fall further behind.

CONTEXT STATEMENT – School. Use National Data: <u>https://explore-education-statistics.service.gov.uk/find-statistics/special-educational-needs-in-england</u> Blackwater has, at January 2022, 16 of 109 pupils on the record of need and 3 with EHC. A more detailed breakdown and comparisons with national data is in the tables below:

General Overview (2021 Data for National, January 2022 data for Blackwater)

		2020	2021		
	EHC	SEND General	EHC	SEND General	
Blackwater School	0%	14.5%	2.7%	12%	
National	3.3%	12.1%	3.7%	12.2%	

Specific Areas of need (2021 Data for National, January 2022 data for Blackwater)

	SpLD	MLD	SLD	PMLD	C & L	SEMH	SLCN	ASD	C & I	VI	HI	MSI	PD	S & P	Other	NSA	
Blackwater	12.5	22%	6%	0	31.2%	12.5%	18.7%	44%	50%	0	0	0	0	0	0	0	0
National	12	18	2.6	0.8	33.4%	18.4	22.6	12.5	35.1%	1	1.8	0.3	2.8	6.9%	4.0	3.2	7.2%

Cognition and Learning: SpLD – Specific Learning Difficulty; MLD – Moderate LD; SLD – Severe LD; PMLD - Profound and Multiple LD Social, Emotional and Mental Health:

Communication and Interaction: SLCN – Speech and Language or Communication Needs; ASD – Autistic Spectrum Disorder **Sensory and Physical:** VI – Visual Impairment; HI – Hearing I; MSI – Multi-sensory I; PD – Physical Difficulty Other; NSA – No Specialist Assessment

Broad Area of Need		Specific Area of Need
1. Communication and interaction	1.1	Speech, language and communication needs (SLCN)
	1.2	Autism including Asperger's syndrome (ASD)
2. Cognition and learning	2.1	Moderate learning difficulties (MLD); Severe learning difficulties (SLD);
		Profound and multiple learning difficulties (PMLD)
	2.2	Dyslexia
	2.3	Dyspraxia (Developmental co-ordination disorder DCD)
	2.4	Dyscalculia
3. Social, emotional and mental health difficulties	3.1	Trauma
	3.2	ADHD
	3.3	Anxiety
	3.4	Tourette's Syndrome
4. Sensory and / or physical needs	4.1	Hearing impairment (HI)
	4.2	Visual impairment (VI)
	4.3	Multi-sensory impairment (MSI)
	4.4	Physical Disability
	4.5	Toileting

	Provision / Adaptation	Subject Specific
1.1 SLCN	1.1a All staff to be aware of the level of language the child is using and use a	All subjects
	similar level to ensure they understand	Aim for all pupils with SEND to be included, learning
DO NOT CONSIDER THESE	1.1b Do not rush or interrupt as they might have to begin processing from the start	towards the same objectives as peers and at NARE or
PROVSIONS OR ADAPTATIONS	1.1c All staff to be aware of the specific communication difficulties - it may not be	making accelerated progress

appropriate levels of	1.1v Regularly check understanding	see peers of video to demonstrate delivity visually
confidentiality	1.11w Key words to be written up with meanings/visual aids	
	instructions are given clearly and reinforced	

	1.1x Ensure all adults are aware of their role in supporting learners to contribute to lessons.	
 1.2 ASD DO NOT CONSIDER BELOW AS APPROPRIATE FOR ALL CHILDREN WITH ASD ALWAYS BE AWARE OF THE NEEDS OF THE CHILD AND TAKE ADVICE FROM CORNWALL ASD TEAM AS APPROPRIATE: https://www.cornwall.gov.uk/schools- and-education/special-educational- needs/council-support-services/autism- spectrum-team/ The SENDCO must ensure all adaptations and / or provisions are: in line with the child's IEP (or equivalent) and / or EHC are in line with advice from educational and / or medical professionals have been discussed and agreed with parents 	 1.2a All staff to understand that it may take time to trust someone. 1.2b Make learning accessible - differentiate where necessary. 1.2c Ask the child where they are most comfortable sitting 1.2d Avoid changing seating plans without consulting 1.2e Consider giving instructions using tick lists, break down tasks into chunks. 1.2f Avoid over use of open-ended questions as they may not focused enough to enable the child to give a response 1.2p Provide some vocabulary, structure or starting ideas 1.2h Use visuals and structured tasks, incorporating child's interests where possible 1.2i If helpful and age appropriate provide a clear sequence of lessons in advance 1.2j Give time to process information and avoid putting the child on the spot by asking questions publicly, unless you know they are comfortable 1.2l Prepare child for and staff for what is coming next and what is the focus of learning for the lesson 1.2m Allow use of speech to text technology so there is less writing or allow child to present work in an alternative format, unless this contradicts their learning needs 1.2n Understand that the child is likely to experience sensory processing difficulties where they may be either over-responsive or under-responsive to sensory stimuli 1.2o Allow child to have planned and unplanned sensory breaks in a break out space and / or fiddle toys in class. 1.2p Be aware that the child may have rigid expectations of the structure of a lesson and changes may cause anxiety 1.2c Consider use of Task Management boards 1.2r Understand that the child may struggle to work in a group and on their own due to communication difficulties. 1.2s Be aware that the child uses a lot more energy coping with the day, so completing homework may be a challenge. 1.2t Insure the child understands how to do homework, support them to do the homework is school or give less homew	All subjects Aim for all pupils with SEND to be included, learning towards the same objectives as peers and at NARE or making accelerated progress All staff must understand that challenging behaviour is often communicating a need or difficulty. Find out which strategies work and use regularly, being aware that their success may be variable and change over time. Create a word bank organised to show that the same word can have different meanings in different contexts and to highlight difficult or abstract words English Maths Learners with ASD may struggle with word problems and need adaptation because of the following difficulties: <i>Organizing</i> the order of operations in multiple-step word problems; <i>Holding</i> information from one step while manipulating information from another step; <i>Shifting</i> from one piece of information to a second piece of information; Attending to the <i>relevant</i> information within the word problem; Focussing on <i>unimportant</i> information within the word problem. Controlling the impulse to solve the first identified operation without understanding all steps involved. Science Ensure that learners with sensory issues are considered in relation to sounds, smells textures etc involved with science experiments. DT History Stories can bring the past to life. Encourage story writing to promote empathy with people in the past and to encourage the discussion of interpretations or sources; Some children often feel comfortable with their knowledge of their own world but disorientated by ideas associated with the past. Starting with the known allows children to feel confident and new ideas to be shaped and modified. Build on the child's understanding. Start with child's own knowledge,

	views and understanding and identify their
	views and understanding and identify their
	preconceptions and misconceptions – e.g. "What rights
1.2 ASD (cont)	do you as year 6 have today?" as a starting point for
	the status and rights of people in history.
	Use a range of different questions to elicit causation,
	understanding, emparthy, judgement etc. Careful
	planning can help children with ASD to develop higher
	level reasoning, e.g. by designing questions carefully,
	based on their prior learning, and, if necessary,
	providing some pre-tutoring of lesson content.
	Recognise that the language of history may be
	challenging and cause barriers for some children, e.g.:
	the specific use in history of an everyday word, e.g.
	'party', 'church', 'state'; the use of history-specific
	terms, e.g. 'chronological', 'artefact'
	the use of abstract terms, e.g. 'power', 'belief'.
	Geography (OFSTED Subject Review)
	Very little has been written about geography education for pupils with SEND. In inspections of outstanding
	mainstream primary schools, we found that schools
	had rarely found it necessary to make changes to the
	curriculum for pupils with SEND but had often
	modified their teaching approaches. There is a need
	for all pupils to share the same curriculum, with the
	same level of ambition and expectation of the
	geographical knowledge that pupils should know. For
	pupils with the most complex learning needs, there
	may be occasions when it is appropriate to modify the
	curriculum. However, this will be the exception.
	Several authors note that, in modifying teaching
	approaches, appreciating each pupil's specific needs
	dictates the changes that need to be made. These
	pupils may also benefit from relief models for
	mapwork or audio description of images.
	Gaps in pupils' knowledge are likely to be one of the
	main barriers to making good progress. In 2 studies,
	researchers showed that, where pupils
	with SEND were not fluent in component knowledge,
	they experienced difficulties. Although we know this to
	be true for all pupils, these reports highlighted its
	significance for pupils with SEND. Teachers must be
	alert to the specific gaps in knowledge that these

		pupils may have so that they can prioritise the
		concepts that are most fundamental to future learning.
2.1 MLD; SLD; PMLD DO NOT CONSIDER BELOW AS APPROPRIATE FOR ALL CHILDREN WITH MLD, SLD or PMLD AND ALWAYS BE AWARE OF THE MEDICAL NEEDS OF THE CHILD. TAKE ADVICE FROM	 2.1a Provide differentiated work, broken down into small tasks and/ or chunks 2.1b Give time to consider questions, process and formulate answer. Slow down and/or reduce the number of words that used. 2.1c Plan self-checks at each stage of task with use of a tick list. 2.1d Use visual timetables and prompt cards with pictures to remind the child what they need to do to complete the task 2.1e Provide word bank with key vocabulary and check understanding 2.1f Provide key words with pictures/symbols to aid memory 	All subjects – Providing in line with IEP / EHC, provide differentiated work on the same objective as peers; Make learning multi-sensory. Use equipment, apparatus, visual aids, etc.; English Maths Science - Make science practical and where possible related to everyday experiences/the world; link facts
THE SCHOOL NURSING SERVICE / NHS / CORNWALL COGNITION AND LEARNING TEAM AS APPROPRIATE https://www.cornwall.gov.uk/health-and- social-care/childrens-services/health- visiting-and-school-nursing/school- nursing/ https://www.cornwall.gov.uk/cognitionandlearning	 2.1g Provide a writing frame to help structure work. 2.1h Keep PPT slides simple and highlight key information 2.1i Understand that the child may struggle with visual and auditory memory for information, processes and instructions – check understanding of questions and tasks before they begin and re-focus and check understanding during task 2.1j Understand that if off task, it is likely that they do not understand what is expected not because they haven't listened 2.1k Use structured questioning and support by scaffolding a response 	and learning, so the leaner has an internalised and memorised facts to return to; ask the learner to explain how they have come to an answer - whether right or wrong which helps to understand thought processes, and to identify if, and where, these are breaking down; encourage children to explain to themselves and others how they have completed a task; build up a chart (using a wallchart or other
The SENDCO must ensure all adaptations and / or provisions are: in line with the child's IEP (or equivalent) and / or EHC are in line with advice from	 2.11 Make a mind map or other visual representation of what they already know and use as a starting point to teach next steps. 2.1m Demonstrate and model tasks physically alongside verbal instructions 2.1n Repeat information in different ways, varying vocabulary, check understanding and if they didn't understand what has been said, rephrase it 2.1o If in line with IEP and or EHC, consider giving the child with a work 'buddy'. 2.1p Understand that the child may find personal organisation difficult - support by providing clear instructions for homework, including a submission date and a list of equipation. 	space) to show the focus of each lesson and how successive lesson topics link together to develop understanding of an area of science work; this could include symbols, images or objects to make it more accessible; use a digital camera to capture each stage of an investigation, or important findings on a field trip, for future reference; images can also be used to build a visual record.
educational and / or medical professionals have been discussed and agreed with parents	list of equipment for each lesson, which may need to be visual 2.1q Give a manageable number of instructions to the child - be aware iof possible difficulties with sequencing which can often cause confusion if too many instructions are given at once 2.1r Keep instructions simple and provide a (possibly visual) checklist 2.1s Be aware that the child may appear immature and find it difficult to mix with their paper group. Be visilant forbullying as a result and encourage paired	DT History Auditory strategies are commonly used strategies in history teaching. They are ideal for auditory learners but are also valuable for children with an SEND who find text-based work difficult Consider converting written sources to an auditory
and are known by all relevant staff, but ensuring appropriate levels of confidentiality	 with their peer group. Be vigilant forbullying as a result and encourage paired working or group work if in line with IEP or EHC 2.2t Be aware that the child may appear needy with an over-reliance on adult support. Promote independence by making the curriculum accessible 2.2u Give specific, targeted praise to the individual and focus around the task and elements of IEP or EHC 2.2v Split task / learning activity into short chunks to allow for processing and opportunity for embedding the key components of the learning 2.2w If in line with IEP or EHC, utilise stories adapted to make remembering the learning easier, for example through storyboards 	form. Emotive auditory sources can be used to engage and motivate all children Use pictures and symbols to illustrate abstract, new or historical concepts to enhance curriculum access for children with learning difficulties. Provide symbols for example for artefacts from historical times Scaffold speaking or writing, e.g. using sentence starters, writing or speaking frames that focus children' attention on key pieces of information. Writing or speaking frames can be used to provide

2. Dy Dravida alternative ways to record their ideas such as audio and (or visual	promote and support of a when working with sources
2.2x Provide alternative ways to record their ideas such as audio and / or visual, mind maps, bullet point lists, storyboards	prompts and support, e.g. when working with sources children could use, for example:
2.2y Re-cap previous learning to enable working memory, possibly using a chart to	- This tells me – In this picture I can see
build up each week's key learning visually	- This suggests
2.2z Consider use of visual aids from previous relevant learning.	 I think it was made/drawn/ written in
2.2aa Present information in a visual form with only the key information for the	because
learner to remember	– Both sources say
2.2bb Scaffolded work through use of writing frames.	- The sources are different in these ways
2.2cc New vocabulary selected for the key words and explicitly taught in pre-	The sources are uncreate in these ways
teach.	Use of ICT in history:
2.2dd Give concrete, practical example of what you want the child to do / produce	ICT can be used to help children of all ages develop
Zizud olve concrete, producer example of white you want the enhance of produce	the knowledge and skills that history demands. It
	provides them with opportunities to: select and
	reproduce sources in a range of media, contextualise
	and interpret sources, reconstruct and simulate
	historical events, construct narratives, identify patterns
	in large quantities of data, and develop, organise and
	communicate historical thinking.
	ICT can provide children and teachers with access to a
	wide range of historical source material which can be
	analysed in detail using readily available IT tools
	ICT can help children develop historical enquiry skills,
	and help them to realise the importance of these skills
	in the study of history
	ICT can promote collaboration between children,
	which in turn can help to develop historical thinking,
	and enable teachers to present historical materials in
	ways most suited to individual and personal needs.
	Use devices to structure written work, cut and paste
	material into cause and effect tables, use bold,
	underlining or highlighting to identify fact and opinion,
	or make revisions easily.
	Geography
	Teachers can identify and break down the components
	of the subject curriculum into manageable chunks for
	pupils who find learning more difficult, particularly
	those with cognition and learning needs. These may
	be smaller 'steps' than those taken by other pupils. For
	example, for some pupils to understand glacial
	landforms, specific teaching about climate change over
	geological time and weathering and erosion processes
	may need to be more explicit and broken down into
	individual components.

 2.2 Dyslexia DO NOT CONSIDER BELOW AS APPROPRIATE FOR ALL CHILDREN WITH DYSLEXIA AND ALWAYS BE AWARE OF THE NEEDS OF THE CHILD AND TAKE ADVICE FROM CORNWALL COGNITION AND LEARNING TEAM https://www.comwall.gov.uk/cognitionandlearning The SENDCO must ensure all adaptations and / or provisions are: in line with the child's IEP (or equivalent) and / or EHC are in line with advice from educational and / or medical professionals have been discussed and agreed with parents and are known by all relevant staff, but ensuring appropriate levels of confidentiality 	 2.2a Check reading ability and barriers and ensure work is differentiated 2.2b Use pastel shades of paper and matt paper which to reduce 'glare' 2.2c Avoid black text on white background / light text on dark background 2.2d Many dyslexic learners prefer text at font size 12 or above and fonts which are clear and rounded with a space between letters eg: Tahoma, Arial or Verdana 2.2e Use 1.5 or double line spacing and wide margins and lower case rather than capital letters 2.2f Use numbered or bullet points rather than continuous prose 2.2g Keep paragraphs short – dense text blocks can be harder to read 2.2h Understand that the use of background graphics with text over the top can be visually confusing 2.2i Consider using text boxes or borders for headings and to highlight key text 2.2i Konw that for some learners, underlining and italics makes words 'run together' 2.2k Use bold text for titles & sub-headings or to draw attention to important informationor key vocabulary. Colour-code text – for example, information in one colour, questions in another. 2.2n Ensure that the child can understand data, charts and diagrams and are adapted if necessary with irrelevant information removed 2.2n Avoid too much text on the page and avoid clutter 2.2p Leave an appropriate space for response – this may be much larger than peers 2.2q Provide additional support for the child to learn, understand and retain key vocabulary 2.2r Read through questions and check understanding with the child 2.2s Ensure all staff, including supply staff and peripatetic teachers are aware the child be uncomfortable reading aloud or in front of a group 2.2t All staff to be aware the child may use a personalised coloured overlay to track words – in this case, ensure it is in IEP or equivalent 2.2u All staff to be aware that child may use toxt to enoorth tochonlone overlay or	All subjects Aim for all pupils with SEND to be included, learning towards the same objectives as peers and at NARE or making accelerated progress. If in line with IEP or EHC closed questions where possible as the child may experience difficulty in explaining answers English Maths Playing to pupils' strengths: the powerful declarative memory systems of pupils with autism Many pupils with autism have 'normal to above average algorithmic thinking ability' but can struggle with reasoning and problem-solving because of:
	 2.2v All staff to be aware the child may use text to speech technology – in this case, ensure it is in IEP or equivalent 2.2 w Working Memory: Re-cap of previous learning to enable working memory; consider use of dual coding; use a chart to build up each week's key learning visually; re-teach main aspects of previously taught lessons with key information; learning presented in small chunks; access visual aids from previous 	pupils more time to study core content so that they can close gaps in learning through deliberate memorisation. Leaders should also make sure pupils' lesson time is used efficiently and effectively

relevant learning; present information in a visual form with only the key information for the learner to remember.

2.2x Processing time: Time to talk through ideas and concepts; time for recall; repeat instructions using the same language

2.2z New vocabulary: Word mats with pictorial aids; written prompts; stories presented in alternative styles, for example cartoons, storyboards; Exaggerate new vocabulary by separating syllables; mnemonics;

2.2aa New vocabulary: Talk partners; Dual coding; draw concepts;

Coloured overlays (also think about the colours of any IWB presentations); larger font

2.2bb Sequencing: Repeat instructions and information; sequencing frames, written scaffolding

2.2bb Recording: Alternative methods of recording information including audio/visual to ensure key concepts are recorded; paired writing;

Science

Many learners with dyslexia have strong visual and spatial reasoning skills. They tend to better understand science concepts that are taught through manipulative or visual teaching strategies. Using lots of practical resources will be beneficial. ; where possible, try linking science to real life contexts that are practical and meaningful for the learner; use a digital camera to capture each stage of an investigation, or important findings on a field trip, for future reference. Images can also be used to build a visual record; use mnemonics to help learners remember things like the order of the colours in a rainbow, order of planets in the solar system or convection currents in weather systems.

DT

History

Summarising ideas in pictures; modifying visual sources to show changes; comparing visual sources from different times; explaining patterns in graphs; using visual timelines; using or presenting information in tables or diagrams, rather than unbroken text: storyboarding text, and demonstrations - e.g. illustrating the reason for the large number of casualties at the Somme by tapping out the five rounds per second of a machine gun compared to the much slower firing rate of a bolt-action rifle. Auditory methods (based on listening and speaking) are the most common found in history teaching. They are ideal for auditory learners but are also valuable for children with an SEN who find text-based work difficult. In this case, written sources could be converted to an auditory form. Emotive auditory sources can be used to engage and motivate all children

 4.3 Multi-Sensory Impairment – see hearing and vision above The SENDCO must ensure all adaptations and / or provisions are: in line with the child's IEP (or equivalent) and / or EHC are in line with advice from educational and / or medical professionals have been discussed and agreed with parents and are known by all relevant staff, but ensuring appropriate levels of confidentiality 		children to develop a shared understanding of the world Use of real objects when introducing new vocabulary PSHE Ensure that disabilities, including vision loss, are included in your programme of study if your school teaches personal, social, health and economic education (PSHE) curriculum. Ensure access to extra-curricular activities
4.4 Physical Disability ALWAYS BE AWARE OF THE MEDICAL NEEDS OF THE CHILD AND TAKE ADVICE FROM THE PHYSICAL DISABILITY MEDICAL NEEDS SERVICE AS APPROPRIATE	The range of physical disability makes it impossible to give useful advice. Below is an overview and specific information on the types and causes of PD Physical disability is defined as a "limitation on a person's physical functioning, mobility, dexterity or stamina" that has a 'substantial' and 'long-term' negative effect on an individual's ability to do normal daily activities. (Equality Act,2010). However, the effects of physical disability on a person's experience of life and learning varies even for children with the same diagnosis or condition .	English Maths Science DT History Geography For pupils with physical disabilities, teachers have to make adjustments both in the classroom and to the

 Interference and acceleration of the second development of th	 For some the influence of their physical impairment may be mild, whilst for others, the effect may be profound <i>impacting on every aspect of development</i>. For others, their disability may be hidden, such as arthritis, or very evident necessitating a range of individual equipment and assistance from others. Others may have degenerative conditions or their symptoms may fluctuate across the day. Some children and young people will have additional difficulties which could include visual or hearing impairment, autistic spectrum conditions, epilepsy or additional medical, communication or learning needs. Every child or young person with physical disability is unique, but their physical needs are generally likely to come from: physical, metabolic or neurological causes, e.g. Cerebral palsy or achondroplasia degenerative conditions, e.g. Duchenne muscular dystrophy severe trauma, e.g. as a result of an accident, amputation or serious illness chromosomal disorder, e.g. Turner syndrome, TUBB4A or Ehlers-Danlos syndrome acquired brain injury (ABI) muscular skeletal conditions birth trauma and prematurity upper limb differences affecting hand function and fine motor movement lower limb differences affecting mobility and physical function, although there is no diagnosis Whilst every individual is affected by their unique physical needs in a different way children and young people with a physical disability may often have difficulty in: accessing the physical environment using equipment and facilities safely taking part in learning taks and assessments doing practical tasks and activities, e.g. food technology recording ideas and thoughts legibly or to time achieving independent work 	ways in which fieldwork is carried out. Depending on the nature of disability, this may involve selecting locations (and sampling sites) carefully or adapting itineraries. Furthermore, it may be possible to use additional adults to support pupils' mobility or adapt resources so that pupils with SEND can engage fully. Art and Design Music PE Computing MFL RE PSHE
	 using equipment and facilities safely taking part in learning tasks and assessments doing practical tasks and activities, e.g. food technology recording ideas and thoughts legibly or to time 	

	"It will always be a challenge to meet the expectations of parents and the needs of all children and young people, especially in a context of constrained resources. The barriers faced by some children are very significant, and it requires skill and sensitivity from professionals working together to overcome them. However, there is a need for a continuing focus on and the highest expectations for disabled children and young people and those with special educational needs."Special Educational Needs and Disability Review: A Statement is Not Enough, Ofsted, 2010	
4.5 Toileting The SENDCO must ensure all adaptations and / or provisions are: in line with the child's IEP (or equivalent) and / or EHC	 4.5a All staff to be aware that toileting issues can be caused by a range of factors including sensory differences, anxiety and other medical conditions including Inflammatory bowel disease (IBD), ulcerative colitis and Crohn's disease 4.5b Agree with staff, parents and the child the best system for allowing the child to leave and return to the classroom discreetly and without having to get permission whenever they need the toilet. This may be via a "Pass" but the system must be know and adhered to by all involved including supply or peripatetic staff 4.5c Consider asking the child to be seated close to the door so that they can leave the classroom discreetly 	
are in line with advice from educational and / or medical professionals	4.5d All staff to appreciate that the child may arrive late at school for lessons and not to draw attention if this is the case4.5e Staff to be aware that I may need to take medication during school hours and/or need extra meal breaks.	
have been discussed and agreed with parents	Be mindful of other students teasing about lack of stamina or need for rest Respect need for privacy – the pupil and parents should decide how much information is shared with staff and other pupils are told about the condition Be alert to psychological needs and relationships with other children. Allow the child	
and are known by all relevant staff, but ensuring appropriate levels of confidentiality	to judge whether they are able to join in sport/ PEor after-school activities on a day today basis and maintain dialogue with pupil and parents It is important to bear in mind that strenuous physical exercise can trigger an urgent need to go to the toilet or cause joint pains. Even mild activity may be too much at times if the child is feeling exhausted, suffering severe stomach pain, or	
For most children of primary age and above medical professionals will be involved, but if not,	recovering from surgery. Bending and stretching may bring on pain or make pain worse. Team games can be particularly problematic. Be aware that the child may push themself so as not to let anyone down. I may need an extended deadline for homework assignments	
gain consent from parents to involve your school nurse.	When a school trip is coming up, talk to the child and parents about needs and try and arrange to meet these, e.g. with an aisle seat at the theatre or cinema and using a coach with a toilet. If unwell consider giving me time to rest rather than sending me home. If there is a diagnosed medical condition, there should be an <u>Individual</u> Healthcare Plan – all staff should be familiar with this document.	
	Intimate Care Plan. Please make sure that you are familiar with this document.
